## **Ultrasound – Diagnostic Medical Sonography Program Questionnaire**

All applicants are required to prepare for admission by investigating the profession of sonography as practiced in Manitoba.

Please answer the following questions directly on these pages and submit them with your application.

The responses must be hand written in ink (not pencil). They will be assessed for content, clarity, grammar, spelling and legibility.

### **Applicant Declaration**

I understand that failure to complete and submit this form will result in the cancellation of my application with no refund of my application fee.

Name (please print) \_\_\_\_\_ Signature \_\_\_\_\_ Date \_\_\_\_\_

Please provide a brief autobiography:

When and how did you become interested in Ultrasound as a career opportunity?

What is your major motivating factor to be a sonographer?

What do you hope to get out of a position in Ultrasound that you are unable to get in your present or past positions?

Describe your preparation for a career in sonography.

Have you job-shadowed in diagnostic Ultrasound? If so, when, where, for how long, and what did you observe?

What is the most important aspect of the sonographer's role?

Describe how your patient care experiences will prepare you for a sonography position.

What qualities do you possess that will make you a good sonographer?

Describe your use of computer technology such as word processing and presentation software. Identify specific functions that you are currently performing that require this technology.

What do you know about the current job situation and salary range for medical sonographers in Manitoba?

What do you know about work-related muscular skeletal disorders (WRMSD) in diagnostic Ultrasound?

How did you find out about this training program?

What do you know about the course load and time commitment involved in the Ultrasound training program?
